### II. GENERAL INFORMATION

- A. While CORA clearly specifies the nature of documents subject to public inspections and sets forth timetables for compliance with valid open records requests, it is in the best interest of the department that such requests be handled in a substantially uniform fashion. Furthermore, in certain instances, it is necessary that the Commissioner be aware that a request has been filed.

- B. CDA is committed to complying with CORA; therefore, in accordance with the Department's common standard of customer service, CDA will provide access to all requested public records in a timely fashion.
- C. CORA requires release of all public records maintained or kept by an agency that are subject to disclosure. CORA does not require that an agency create a record or answer general or specific interpretive questions.

### III. POLICY

- A. The Department shall accept only written records requests.
- B. All records requests made of CDA shall be immediately provided to the appropriate Division Director, with the exception of requests from the media.
- C. The division will respond to all CORA requests and will notify the Commissioner's Office through the Communications Director when appropriate.
- D. CORA requests from the media shall be immediately provided to the Director of Communications and the appropriate Division Director. The Director of Communications will coordinate the response.
- E. Records requests or requestors that cite the federal Freedom of Information Act shall be treated as though they were made pursuant to CORA.
- F. Department staff should never assume a record is exempt from CORA and should always consult the Division Director before making a final determination.
- G. The Department shall charge for all copying expenses and reasonable costs if the request requires the production of more than 25 pages of documents or the use of more than one hour of staff time to locate or produce records.
